

Summer Camp Amelia Island 2023
Abbreviated Course Descriptions

Evidence Based Instrument Sharpening (1.5 ceu's) 2 offerings

Monday, July 24th, 5:30 – 7:00 PM and Thursday, July 27, 5:30-7:00 PM

Free Course

Workshop Leaders: Cynthia Biron, RDH, EMT, MA Ed; Lorinda Simon, CDA, CRDH, MS

Based on the research of the three main methods of manual instrument sharpening, this hands-on workshop will provide the attendees with the methods of each sharpening technique and how each method fared in the research. Attendees will be provided with demonstrations on how to use each technique and shown the findings from the research. There will be one instructor to every five attendees to provide one-on-one instruction during this 90 minute workshop. Location: Strathmore Meeting Room at Hampton Inn & Suites Harborfront Hotel, 19 S. 2nd St. Fernandina Beach, FL. 32034. **This workshop is limited to 40 attendees.** It will close when filled. In the event of cancellation, DH Methods of Education, Inc. is NOT responsible for reimbursement of travel including flights.

TalEval & Accreditation (1 ceu) *Wed. July 26, 2023 at 6-7pm*

Free Course and Reception. Course Instructor, Cynthia Biron, RDH, EMT, MA ed

In honor of our 20 year anniversary of TalEval, America's Software is sponsoring a reception and CE course on TalEval and its exhibits for accreditation. The 1 ce course will be offered at Summer Camp Amelia Island on Wednesday, July 26th at 6:00 pm-7:00 pm. There will also be wine, soft drinks and finger foods for the celebration starting at 5:30pm in the Cafe at our hotel, Hampton Inn & Suites Harborfront Fernandina Beach.

The course is strictly about the reports generated by TalEval for demonstrating compliance with CODA Standards. It does not include information on "how to grade" or analyze your school database or setting up your own TalEval database. This workshop is capped at In the event of cancellation, DH Methods of Education, Inc. is NOT responsible for reimbursement of travel including flights.

TalEval Clinical Teaching Methodology (8 ceu's) **Two offerings: Saturday, July 22nd and Friday July 28th 8am-5pm**

Course Presenters: Cindy Biron, RDH, EMT, MAed; Lorinda Simon, CDA, CRDH, MS

This is clinical teaching methodology workshop that includes a presentation of the foundation on which TalEval was built, outlining the model for the clinical learning environment that assures the students' progression of clinical skill development. The attendees will learn how to smoothly conduct clinic operations where students provide patient centered care and maximize the opportunity for learning. Methods of planning clinical learning experiences, and calibrating on clinical grading will be described in detail. The grading system will be described in detail and a step by step explanation of grading will be provided. The afternoon session is a hands-on experience of grading student-patient case experiences. The course participants will login to our TalEval teaching database and grade case-based student performance. Each attendee must bring their laptop for the hands-on portion of the workshop. This workshop is limited to 30 attendees.

1. Advanced Root Instrumentation Workshop (4 ceu's) *Sat. July 22, 1:00-5:00 PM*

Course Instructor: Christine Dominick, CDA, RDH, M. Oc. Ed and team of Instructors

This is a hands-on workshop with one-on-one instruction in how to teach instrumentation in dental hygiene clinic. There is one instructor to every 5 course participants to ascertain that each participant is calibrated on how to teach and demonstrate instrumentation techniques to students. The lecture component includes an explanation of hand and ultrasonic instruments and how they adapt to anatomical surfaces of tooth roots and methods for accurately debriding and smoothing the surfaces. A Sim-Lab with Porta-Sim stands and periodontally involved typodonts as well as HuFriedy root instruments that are loaned to the participants during the workshop. Instrument sharpening instruction with the "Diamond Pony" (lunch sponsor) is included at the end of the workshop.

Class limited to 30 participants.

2. Periodontal Instrumentation and DH Clinical Calibration Workshop (8 ceu's) *Sun. July 23, 8:00 AM - 5:00 PM*

Course Instructor: Cynthia Biron RDH, EMT, MA Ed and team of Instructors

This workshop includes a hands-on workshop with one-on-one instruction in how to teach instrumentation starting with preclinic and leading into the second year of dental hygiene clinic. Calibrating on words and ways to impart the skills to students is included in this workshop along with exercises in providing written documentation. There is one instructor to every 5 course participants to ascertain that each participant is calibrated on how to teach and demonstrate instrumentation techniques to students according to the textbook "Periodontal Instrumentation and Advanced Root Instrumentation" by author, Jill S. Gehrig. A Sim-Lab with Porta-Sim stands and periodontally involved typodonts as well as HuFriedy instruments that are loaned to the participants are provided to attendees during the workshop. The workshop includes a calculus detection calibration work session and a corroborative error exercise for calibration of faculty evaluating student instrumentation in a practicum. The DH Clinic Key is included with the course

Class limited to 30 participants.

[3. How to Teach Dental Hygiene Preclinic \(4 ceu's\) Mon. July 24, 8:00 AM - Noon](#)

Course Presenter: Robin Matloff, RDH, BSDH, JD

This is a completely developed, tried and true course that includes everything you need to teach preclinic theory and plan the corequisite preclinic lab: the syllabus, the course calendar, "Instructor Calibration Guide" to each module, the power point presentations for each module, the evaluation system, the test bank and learning activities. This is not an instrumentation course. The course instructor will guide you through the process of teaching each module, calibrating the faculty, and teaching and evaluating the students in theory and discussion. The entire completely developed course is provided on a flash drive for the attendees. (A copyright agreement must be signed to receive the flash drive). The course is developed in accordance with the textbooks: "*Patient Assessment Tutorials*" by Jill S. Gehrig, "*Periodontal Instrumentation & Advanced Root Instrumentation*" by Jill S. Gehrig and the "DH Clinic Key" encrypted flash drive of instrumentation videos and clinical assessment guides by DH Methods of Education, Inc. The DH Clinic Key is included with the course. **Class limited to 30 participants**

[4. How to Teach Oral Anatomy \(4 ceu's\) Mon. July 24, 1:00-5:00 PM](#)

Course Instructor: Cathleen Korondi, CDA, RDH, Ed D

This is a methodology workshop specific to teaching Oral Anatomy. The course presenter does not teach you oral anatomy in this class. Those who attend this course are expected to know the subject and be interested in exploring innovating methods of teaching it. This course includes the entire contents of the Oral Anatomy course for dental assisting and dental hygiene students. The course includes the course manual, syllabus, power point presentations, class activities, course projects, case based quizzes and exams. The entire course is placed in electronic format and accessible by flash drive that is provided with the course. (A copyright agreement must be signed to receive the course flash drive). The instructor will direct course attendees in the methods of teaching Oral Anatomy to students. Ways of simplifying the complex topics of the subject matter are clearly explained so that seasoned and novice educators will be well prepared to deliver the information in their own courses. The course can be applied in conjunction with any of the Oral Anatomy textbooks currently available for dental assisting and dental hygiene education. **Class limited to 30 participants**

[5. How to Teach Community Dentistry \(4 ceu's\) Mon. July 24, 8:00 AM – 12:00 PM](#)

Course Instructor: Roberta Brown, CDA, RDH, MS

This course will only be offered on alternate years. Next time it is offered is 2025. This course includes the entire contents of the Community Dentistry course for dental assisting and dental hygiene students. The course includes the course manual, syllabus, power point presentations, lab rotation schedule for community extramural experiences, Rubrics for grading community projects, case based quizzes and exams. The entire course is placed on a flash drive for each course attendee. (A copyright agreement must be signed to receive the flash drive). The instructor will direct course attendees in the methods of teaching community dentistry to students. Ways of simplifying the complex topics of the subject matter are clearly explained so that seasoned and novice educators will be well prepared to deliver the information in their own courses. The course can be applied in conjunction with any of the Community Dentistry textbooks currently available for dental assisting and dental hygiene education. **Class limited to 30 participants**

[6. How to Teach Preventive Dentistry \(4ceu's\) Mon. July 24, 1:00-5:00 PM](#)

Course Presenter: Deborah Holixa, RDH, MS

This course is only offered on alternate years and will not be offered again until 2025. This course includes the entire contents of the Preventive Dentistry course for dental assisting and dental hygiene students. The course includes the course manual, syllabus, power point presentations, class activities, course projects, case based quizzes and exams. The entire course is placed in electronic format on a flash drive for each course attendee. The instructor will direct course attendees in the methods of teaching Preventive Dentistry to students using the "mindfulness" teaching methodology. The course can be applied in conjunction with any of the Preventive Dentistry textbooks currently available for DA & DH education. **Class limited to 30 participants.**

[7. Dental Assisting Accreditation Workshop \(8 ceu's\) Tues, July 26, 8AM-5:00 PM](#)

Course Instructors: Christine Dominick, CDA, RDH, M. Oc. Ed; Lorinda Simon, CDA, CRDH, MS

This year we have a complete 2023 accreditation document and exhibits on the course flash drive. The morning session is designed to assist dental assisting educators with the accreditation process, and it provides detailed instructions on demonstrating compliance with accreditation Standards 1 through 2. An emphasis is placed on the sections of standards that are most frequently cited. This course includes electronic documents that are placed on flash drives for each attendee. The first set of exhibits contains an outcomes assessment matrix, outcomes assessment tools, presentations of program. Information on the curriculum, including the Curriculum Management Plan and all aspects of these standards are addressed in this course. Electronic exhibits provide supportive documentation for the clinical education portions of Standard 2. The afternoon session provides detailed instructions on demonstrating compliance with accreditation Standards 3 through 6. The electronic documents on the flash drive for Standard 6 include a Radiation Safety Plan, Exposure Control Plan, Medical Emergency Plan, and Quality Assurance Plan. Complete self-study documents will be available at the end of the day for your review. The Do's and Don'ts of the site visit will be clearly explained to the

attendees. This course does not provide participants with entire self-study electronic documents or guarantee one's success at preparing a self-study document or a recommendation free report from their visiting site team. **Class limited to 30 participants**

8. How to Teach Local Anesthesia (4ceu's) Tues. July 25, 8:00 AM – 12:00 PM

Course Instructor: Robin Matloff, RDH, BSDH, JD

The course includes the course syllabus, power point presentations, class activities, clinical teaching activities and case based quizzes and exams. All the materials are placed in electronic format on a flash drive for each course attendee. (A copyright agreement must be signed to receive the flash drive). The instructor will direct course attendees in the methods of teaching local anesthesia theory and clinical procedures. This is not a hands-on course. Ways of simplifying the complex topics are clearly explained so that experienced and novice educators will be well prepared to deliver the information in their own courses. The course material can be applied in conjunction with any of the local anesthesia textbooks currently available for dental hygiene education. **Class limited to 30 participants**

9. How to Teach Periodontology (4 ceu's) Tues. July 25, 1:00-5:00 PM

Course Instructor: Cynthia Wampler, CRDH, MS

This course is only offered on alternate years and will not be offered again until 2025. This course includes the entire contents of the Periodontology course for dental hygiene students. The course includes the course manual, syllabus, power point presentations, class activities, course projects, case based quizzes and exams. The entire course is placed in electronic format on a flash drive for each course attendee. (A signed copyright agreement is required to receive the flash drive.) The instructor will direct course attendees in the methods of teaching Periodontology to students. Ways of simplifying the complex topics of the subject matter are clearly explained so that seasoned and novice educators will be well prepared to deliver the information in their own courses. A special focus on the new American Academy of Periodontology and the European Federation of Periodontology (AAP/EFP) Classifications of Periodontal Diseases will be included in this course. The course can be applied in conjunction with the textbook, "Periodontics for the Dental Hygienist" by Jill S. Nield-Gehrig. **Class limited to 30 participants**

10. How to Teach Ethics (4 ceu's) Wed. July 26, 8:00 AM - Noon

Course Presenter: Robin Matloff, RDH, BSDH, JD

This course is only offered on alternate years and will not be offered again until 2025. This course will provide the participant with the knowledge and skills to comfortably teach a course in ethics. It includes content on the Dental Code of Ethics, jurisprudence, value determination, ethical decision making model, educational theories, dilemma resolution, and ethics in the professional organization, sexual harassment and occupational burnout. A review of the ADEA Statement and Tool for Action on Professionalism in Dental Education will be presented. Participants will have the opportunity to work collaboratively applying case based scenarios as a means for developing critical thinking skills for student learning. The accreditation Standard, "Ethics & Professionalism", will be addressed along with methods of incorporating it throughout the curriculum, measuring the effectiveness of your methods, and demonstrating compliance with the standard. **Class limited to 30 participants**

11. How to Teach Oral Pathology (4 ceu's) Wed, July 26, 1:00 PM – 5:00 PM

Course Instructor: Cathleen Korondi, CDA, RDH, Ed D

This is a **methodology** workshop. The course presenter does not teach you oral pathology in this class. Those who attend this course are expected to be current in knowledge of the subject material through the attendance of oral pathology seminars and research of current scientific literature. The material presented in the course will be based on current scientific literature and state of the art methods of imparting information to students. Those attending must be interested in exploring innovating methods of teaching oral pathology. This course includes the entire contents of the Oral Pathology course for dental assisting and dental hygiene students. The course includes the course manual, syllabus, power point presentations, class activities, course projects, case based quizzes and exams. The entire course is placed in electronic format on a flash drive for each course attendee. (A signed copyright agreement is required to receive the flash drive). The instructor will direct course attendees in the methods of teaching Oral Pathology to students. Ways of simplifying the complex topics of the subject matter are clearly explained so that experienced and novice educators will be well prepared to deliver the information in their own courses. The course can be applied in conjunction with any of the Oral Pathology textbooks currently available for dental assisting and dental hygiene education. **Class limited to 30 participants**

12. How to Teach Nutrition (4 ceu's) Wed, July 26, 8:00 AM – Noon

Course Instructor: Cynthia Wampler, RDH, MS

This course is only offered on alternate years and will not be offered again until 2025. Using the textbook "Nutrition for Dental Health", topics are organized into teachable units that include PowerPoint Presentations, classroom activities, and suggestions for online assignments. The course instructor will impart helpful tips for patient compliance during nutritional counseling, developed over the past 20 years. Participants will have the opportunity to work with diet diary forms and simulate a counseling session using the most effective talking points and communication skills. All materials will be provided in electronic format on flash drives for each attendee

(A copyright agreement must be signed to receive the flash drive). This half-day presentation will benefit participants who teach a didactic Nutrition course in Dental Education and are responsible for grading processes on clinical nutritional counseling. **Class limited to 30 participants**

13. How to Teach Office Practice Management (4 ceu's) Wed, July 26, 1:00 PM – 5:00 PM

Course Instructor: Roberta Brown, CDA, RDH, MS

This is a new course and if not well attended will not be offered until 2025. This course includes the contents of a Dental Office Management course for dental assisting or dental hygiene students. The course includes the syllabus, power point presentations, class activities, course projects, and case-based quizzes and exams related to basic office management techniques. These include policy and procedure manuals, verbal and written communication, ethics, financial arrangements, insurance, phone technique, and electronic dental records. This course also includes information on creating a cover letter, resume, and an electronic portfolio for use in job searching. The entire course is placed in electronic format on flash drives for each course attendee. (A copyright agreement must be signed to receive the flash drive) The instructor will direct course attendees in the methods of teaching dental office management concepts to students. Ways of simplifying the topics are clearly explained so that seasoned and novice educators will be well prepared to deliver the information in their own courses. The course can be applied in conjunction with any of the dental office management textbooks currently available for dental assisting and dental hygiene education. **Class limited to 30 participants**

14. DH Accreditation Workshop (8 ceu's) Thurs. July 27, 8:00 AM – 5:00 PM

Course Instructors: Christine Dominick, CDA, RDH, M. Oc. Ed; Lorinda Simon, CDA, CRDH, MS

This year we have a 2023 accreditation document and exhibits on the course flash drive. This presentation is designed to guide dental hygiene educators through the accreditation process, prepare them for a site visit and introduce them to procedures required before and after the site visit. It provides detailed instructions on demonstrating compliance with the Commission on Dental Accreditation (CODA) Standards for Dental Hygiene Education Programs and how to address each standard. There will be an emphasis placed on the most frequently cited standards. Updates and changes in the standards are compared with previous accreditation standards to assist attendees in managing what is now expected from the standards. This course provides a step by step guide to organizing and preparing a self-study document. We will have completed self-study documents at the end of the day for your review to assist you with planning the format of your own school's document. Guidelines for conducting a successful site visit are provided in this course. The "Do's" and "Don'ts" of a successful site visit will be clearly outlined for the attendees. The course includes electronic documents that serve as templates for exhibits that are in electronic format on a flash drive for each attendee. (A copyright agreement must be signed to receive the flash drive) This course does not provide participants with entire self-study electronic documents or guarantee one's success at preparing a self-study document or a recommendation free report from the CODA site visit committee. **Class limited to 30 participants**

15. Radiology Educator's Workshop (24 ceu's) Thurs. July 27 - Sat. July 29, 8:00 AM-5:00 PM

Course Presenters: John W. Preece, DDS, MS; Allison Buchanan, DMD, Roberta Brown, CDA, RDH, MS; Lynn Prine, CDA, BS

This workshop provides credentialing for radiology educators of dental, dental assisting and dental hygiene students in accredited programs. The twenty-four hour workshop includes all teaching methods and course materials necessary for teaching a state of the art radiology course in all dental and allied dental programs. Group activities are provided to compliment the corresponding lecture component and provide practical understanding of theoretical concepts and their application to dental radiography. All radiology topics are included along with dental radiology curriculum design and sequencing, assessing competency in radiography, teaching strategies to help make teaching various "theoretical principles" understandable to students from a wide variety of educational backgrounds. This workshop deals with a wide range of topics with some group participation & discussion. A lot of "How do you teach..." "What do you do if/when...." types of issues. Making radiation physics fun and other challenges. The course will include a hands-on component for teaching placement of sensors in digital radiography. Each attendee will receive a Flash drive loaded with all materials needed to teach radiology. **This workshop is 24 hours to include the additional material necessary for the current comprehensive radiology science information required for those teaching this subject. If you decide to take other courses offered at the same time, you will only be given ceu's for the time you were in the Radiology Educator's Workshop and ceu's for the other courses you are attending. You must pay full tuition for both or all courses in which you are registered.** **Class limit: 30**

16. How to Teach Pharmacology Course (4 ceu's) Fri. July 28, 8:00 AM- Noon

Course Presenter: Cathleen Korondi, CDA, RDH, Ed D

This course includes an explanation and the delivery methods for teaching the entire contents of a Pharmacology Course. The course includes the course manual, syllabus, power point presentations, class activities and case based quizzes and exams for a pharmacology course for dental assisting and dental hygiene students. All the materials are placed on a flash drive for each attendee. (A signed copyright agreement is required to receive the flash drive). The instructor will direct course attendees in the methods of teaching Pharmacology. Ways of simplifying the complex topics are clearly explained so that seasoned and novice educators will be well prepared to deliver the information in their own courses. Course assignments and learning activities will be shared and described for effectiveness in implementing into one's own course. The course material can be applied in conjunction with any of the pharmacology textbooks currently available for dental assisting and dental hygiene education. **Class limited to 30 participants**

17. How to Teach Dental Materials (4 ceu's) Fri. July 28, 1:00-5:00 PM

Course Instructor: Roberta Brown, CDA, RDH, MS

This course includes the entire contents of the Dental Materials course for dental assisting and dental hygiene students. The course includes the course manual, syllabus, power point presentations, class activities, laboratory sessions, course projects, case based quizzes and exams. The entire course is placed in electronic format on flash drives for each course attendee. (A copyright agreement must be signed to receive the flash drive) The instructor will direct course attendees in the methods of teaching dental materials to students and calibrating instructors for teaching in the dental materials lab. Ways of simplifying the complex topics of the subject matter are clearly explained so that seasoned and novice educators will be well prepared to deliver the information in their own courses. The course can be applied in conjunction with any of the Dental Materials textbooks currently available for dental assisting and dental hygiene education. **Class limited to 30 participants**

18. How to Teach Management of Special Needs Patients & Medical Emergencies (4 ceu's) Sat. July 29, 8:00 AM – Noon

Lane Foreman, CDA, CRDH, BS

This course is only offered on alternate years and will not be offered again until 2025. This course is only offered on alternate years and will not be offered again until 2025. This course includes the entire contents of the Management of Special Needs Patients & Medical Emergencies course for dental assisting and dental hygiene students. The course includes the course manual, syllabus, power point presentations, Learning activities including role plays, case based quizzes and exams. The entire course is placed on a flash drive for each course attendee. (A copyright agreement must be signed to receive the flash drive). The instructor will direct course attendees in the methods of teaching the subject to students. Ways of simplifying the complex topics of the subject matter are clearly explained so that experienced and novice educators will be well prepared to deliver the information in their own courses. The course can be applied in conjunction with any of the special needs/medical emergencies textbooks currently available for dental assisting and dental hygiene education. **Class limited to 30 participants**

19. How to Teach Histology & Embryology (4 ceu's) Sat. July 29, 1:00 – 5:00 PM

Course Instructor: Lane Wilson Foreman, CDA, RDH, BS Biology

This course includes the entire contents of the Histology & Embryology course for dental assisting and dental hygiene students. The course includes the course manual, syllabus, power point presentations, numerous class activities, course projects, case based quizzes and exams. The entire course is placed on a flash drive for each course attendee. (A copyright agreement must be signed to receive the flash drive). The instructor will direct course attendees in the methods of teaching histology and embryology to students. Ways of simplifying the complex topics of the subject matter are clearly explained so that experienced and novice educators will be well prepared to deliver the information in their own courses. The course can be applied in conjunction with any of the Histology & Embryology textbooks currently available for dental assisting and dental hygiene education. **Class limited to 30 participants**
